The Euro LT Hybrids Setup Instructions are created specifically for your configuration. They are laid out sequentially in levels, including exploded views, and a logical series of detailed steps to assemble the main structure and components. We encourage you to study the instructions **before** attempting to assemble your exhibit.

Components connect together by aligning them and sliding downward connecting clips together.

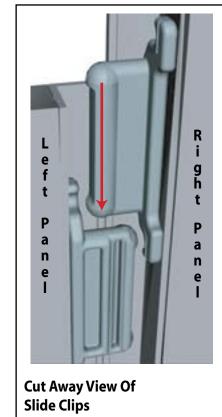

# **Cleaning and Packing Your Display**

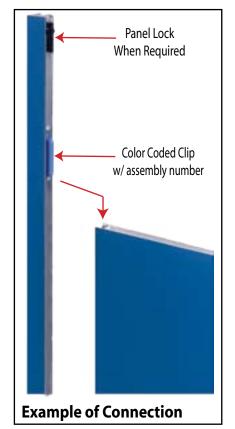

- 1) When cleaning laminate countertops or panels use mild cleansers and a soft material such
- 2) Keep all display components away from extreme heat and long exposure to sunlight to avoid warping and fading.
- 3) Retain all packing material. It will make re-packing much easier and will reduce the likelihood of shipping damage.

Level 1 = Blue Level 2 = RedLevel 3 = Green Level 4 = Black

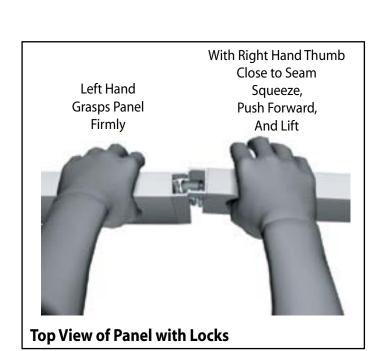

### **Color Code**

The top clip is color coded to distinguish the level. The color coded clip also contains the numbered label

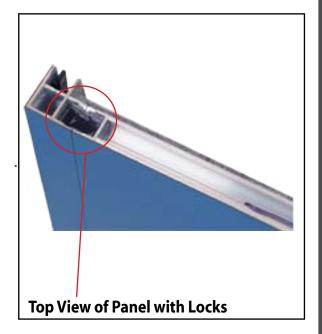

Configurations are assembled from left to right, usually starting with #1 and following the numbered sequence.

The first level of components contains panel locks that are located at the top of the panel for extra stability and a seamless connection. When disassembling panels, twist top connection slightly and lift right panel upward.

Each component has 2 clips,

the lower clip is ALWAYS
